Di *Kamyana Mohyla*, Republik Ukraina, di lembah *Sungai Molochna* (Sungai Susu) ditemukan peninggalan purba berupa *petroglyph*. Penemunya adalah sebuah tim arkeolog muda yang dipimpin *Valentine Danylenko* (1913 – 1983). Diperkirakan berasal pada abad 20 SM.

Hand prints *could be a signature*, or *might be early signs of mysticism*. "One can only speculate. ...You establish a link between the wall and you as a person, and *in a sense leave your sign* on the wall forever."

(Francesco d'Errico, Peneliti di University of Bordeaux, Perancis)
